**1. Overview of Operating Results****(1) Semi-Annual Operating Results**

(Millions of yen)

	First six months of FY3/25 (Apr. 1, 2024 – Sep. 30, 2024)			First six months of FY3/26 (Apr. 1, 2025 – Sep. 30, 2025)		
	Results	YoY change (Amount)	YoY change (%)	Results	YoY change (Amount)	YoY change (%)
Net sales	31,481	2,278	7.8	37,212	5,731	18.2
Operating profit	1,597	627	64.7	1,613	16	1.0
Ordinary profit	1,512	544	56.3	1,600	88	5.9
Profit attributable to owners of parent	944	229	32.2	860	(83)	(8.9)

During the first half of the fiscal year, sales in the restaurant industry were on an increasing trend due to an improvement in the income and employment environments, an increase in inbound demand in part from the effect of the Expo 2025 Osaka, Kansai, Japan, and an increase in per-customer spending due to menu price revisions. However, business conditions remained challenging due to factors such as persistently high purchase prices, including rice prices, cost-push from rising labor, logistics and construction costs, heightened geopolitical risks, and the impact of U.S. tariff policy trends on foreign exchange rates and the economy, and an increased risk of a downturn in consumer confidence due to rising prices.

During the same period, the Group's net sales increased year on year due to the positive impact of the trend in the restaurant industry described above, as well as the effect of increased revenue from M&As conducted in the previous fiscal year and the contribution of new store openings. The cost of sales ratio increased caused by the rapid rise in raw materials prices and labor costs increased due to human resource procurement and strengthened training in anticipation of future store openings. However, operating profit and ordinary profit increased year on year due to improved profitability in existing restaurants from various measures implemented in the previous fiscal year and the favorable performance in net sales described above. Profit attributable to owners of parent decreased year on year due to an increase in tax expenses.

Under these circumstances, on May 9, 2025, the Group announced “SRS VISION 2030,” a new five-year Medium-term Business Plan that began in the fiscal year ending March 31, 2026, with the aim of achieving sustainable growth in corporate value. The basic policy of the new Medium-term Business Plan is “Dramatically develop existing businesses and establish a new earnings base to become the unrivaled No. 1 Japanese restaurant chain” and it will promote four key strategies: (1) turning “Washoku Sato” into a national brand, (2) “Nigiri Chojiro” and “Umai Sushikan” to become the overwhelming No. 1 gourmet sushi chain (3) establish businesses as the third and fourth pillars of earnings, and (4) strengthen group functions and promote sustainable management to support net sales of more than 100 billion yen. These strategies aim to respond to the above-mentioned business conditions, as well as further improve profitability and expand the scale of operations.

In September 2025, the Group acquired all outstanding shares of SUSHI BENKEI CO., LTD., which operates six “Kaiten Sushi Hokkaido” and “Sushi Benkei” gourmet conveyor belt sushi restaurants in Tottori and Shimane Prefectures as we aim to become the “overwhelming No. 1 gourmet sushi chain” by expanding our network of gourmet conveyor belt sushi restaurants. SUSHI BENKEI CO., LTD. uses fresh fish purchased from Sakaiminato and other ports to serve its fresh sushi with large toppings, something it has been particular about since its founding, and is well supported by customers in the Sanin region. Specific initiatives and overviews of each major business category are as follows.

*Washoku Sato* restaurants

As the first step in “turning “Washoku Sato” into a national brand,” one of the key strategies in the new Medium-term Business Plan, we opened the Washoku Sato Kurashiki Higashitomii Store in Okayama Prefecture, in the Chugoku region, which we aim to develop into a new sales area. As a measure to strengthen the brand to embody “heartwarming gathering,” we provided a free baby food service for children under one year of age and free soft serve ice cream to children of elementary school age and under. In addition, to capture sales, we sold high-value-added merchandise such as the “All-you-can-eat Matsutake Mushroom & Salmon Dishes” in the all-you-can-eat courses such as Sato-shabu and Sato-shiki Yakiniiku. We also introduced marketing automation (MA) tools to

automate the execution of marketing measures with the aim of increasing the frequency of store visits by providing a brand experience optimized for each customer. During the six months under review, we opened one store, closed one store and renovated five stores. The number of stores at the end of the second quarter consolidated accounting period was 198. As a result, net sales increased by 103.6% year on year to 14,083 million yen.

#### “Nigiri Chojiro” restaurants

We changed mobile orders for take-out on the “Nigiri Chojiro App” to enable ordering in real time to improve customer satisfaction, as well as introduced a self-checkout system and continued the table service robot experiment to improve productivity. We also actively disseminated information and distributed discount coupons using the “Nigiri Chojiro App” with the aim of increasing the frequency of store visits. In addition, we held the “A Journey with Chojiro - Summer Dishes” fair to further acquire sales and implemented a variety of menu measures including the sale of isaki (chicken grunt), a fish characterized by its good fiber content and soft texture, Maruhime beef, a brand beef from Hachinohe, Aomori, and hamo (daggertooth pike conger), a summer delicacy in the Kansai region, which is oily and rich in flavor. During the six months under review, we renovated one store. The number of stores at the end of the second quarter consolidated accounting period was 72. As a result, net sales increased by 106.8% year on year to 7,468 million yen.

#### Kazokutei restaurants

To increase the frequency of store visits, we actively published information and distributed coupons using the “Kazokutei App,” and registered LINE members. We also actively distributed videos using social media tools such as Instagram, X, and TikTok. In addition, to improve customer convenience, we expanded the number of stores that accept mobile orders using a product number entry method to 46 stores. Aiming to acquire sales, we also held the “Delicious Shikoku Food Travelogue” fair to support the region. We sold “Delicious Shikoku Tenzaru,” which used Ehime hamo (daggertooth pike conger) and Shikoku-grown vegetables and “Shimanto Pork and Shikoku Vegetable Tsukemen,” which used pork from Shimanto, Kochi Prefecture. During the six months under review, we renovated one store. The number of stores at the end of the second quarter consolidated accounting period was 59. As a result, net sales increased by 113.7% year on year to 2,840 million yen.

#### Amino sushi business restaurants

In Umai Sushikan business, to gain sales, we held a “Tuna vs. Salmon” fair at all stores, and tuna and salmon were carefully selected by our purchasing team. These were sold as sushi with large-cut toppings and a specially priced three-piece taster. In addition, a “Capsule Lottery” was held to win discount coupons, and active promotions were carried out such as leaflets and TV commercials to local communities. We also introduced a new time and attendance management system and further systemized shift management in order to improve productivity by improving the efficiency of store operations. During the six months under review, we closed one store and renovated one store. The number of Amino Sushi stores at the end of the second quarter consolidated accounting period was 31. As a result, net sales were 3,367 million yen.

Segment information is not provided because the SRS Group has only the food service business segment.

**(2) Semi-Annual Financial Position**

Total assets at the end of the first six months decreased by 1,270 million yen from the end of the previous fiscal year to 44,673 million yen.

Current assets decreased by 1,428 million yen from the end of the previous fiscal year to 16,661 million yen. This was mainly due to decreases of 1,316 million yen in cash and deposits and 139 million yen in accounts receivable - trade.

Non-current assets increased by 170 million yen from the end of the previous fiscal year to 27,913 million yen. This was mainly due to a decrease of 906 million yen in deferred tax assets and increases of 429 million yen in goodwill and 244 in buildings, net.

Current liabilities decreased by 616 million yen from the end of the previous fiscal year to 10,567 million yen. This was mainly due to decreases of 385 million yen in other current liabilities, 269 million yen in accounts payable - other and 164 million yen in accounts payable - trade.

Non-current liabilities decreased by 1,392 million yen from the end of the previous fiscal year to 16,345 million yen. This was mainly due to decreases of 740 million yen in long-term borrowings, 573 million yen in deferred tax liabilities, and 343 million yen in bonds payable.

Net assets increased by 738 million yen from the end of the previous fiscal year to 17,760 million yen.

**(3) Semi-Annual Cash Flows**

At the end of the first six months, cash and cash equivalents (hereinafter, “net cash”) decreased by 1,420 million yen from the end of the previous fiscal year to 11,147 million yen.

Cash flows and the factors contributing to them during the fiscal year under review were as follows.

**(Cash flows from operating activities)**

Net cash provided by operating activities was 2,014 million yen, compared with 1,062 million yen provided in the same period of the previous fiscal year. This was mainly due to profit before income taxes of 1,580 million yen, depreciation of 1,035 million yen and income taxes paid of 359 million yen.

**(Cash flows from investing activities)**

Net cash used in investing activities was 1,669 million yen, compared with 9,312 million yen used in the same period of the previous fiscal year. This was mainly due to purchase of property, plant and equipment of 1,275 million yen and purchase of shares of subsidiaries resulting in change in scope of consolidation of 313 million yen.

**(Cash flows from financing activities)**

Net cash used in financing activities was 1,766 million yen, compared with 5,488 million yen provided by financing activities in the same period of the previous fiscal year. This was mainly due to repayments of long-term borrowings of 814 million yen and redemption of bonds of 543 million yen.

**(4) Consolidated Earnings Forecasts and Other Forward-looking Statements**

There are no revisions to the full-year consolidated earnings forecast for the fiscal year ending March 31, 2026 that was announced on May 9, 2025.
